In-Car Air Quality

# The Next Generation MiST™ In-Car Air Quality Machine Model 590160

## Easy to operate

Any employee can safely operate the system with minimal training.

## Performance & precision

Amazing performance and outstanding energy efficiency.

## Durable & reliable

Rugged design stands up to the wear and tear of everyday use.

nano-droplet  
technology by  
**MiST™**

UView's MiST™ In-Car Air Quality System features nano-droplet technology and is designed specifically for use with the MiST™ cleaning solution.

Electronic System Management (ESM)

A key component of the redesign is the Electronic System Management (ESM). The ESM controls the system to improve operation, performance, efficiency and reliability.

## Technical Specifications

### MiST™ In-Car Air Quality Machine

#### Model 590160

#### Features:

##### On-Board Diagnostics (OBD)

##### Low level sensor

Ensures optimal performance and automatically shut-off the machine when fluid is low.

##### High level sensor

Ensures correct fluid level to optimize misting volume.

##### Polarity sensor

Protects machine from incorrect attachment to power source avoiding electrical damage to unit.

##### Energy Efficient

Low current draw prevents any potential issue with vehicle's electrical system.

##### Durable

Metal casing protects the components from the rigors of the shop environment.

Integrated cord management and handle allows for easy transportability from vehicle to vehicle.

Anti-fill trap prevents other chemicals from entering the unit which could effect the performance and safety of the system.

#### ELECTRICAL

- Operating voltage: 12.0 – 14.5 V DC
- Current: 3.5 – 4.5 Amps
- Cord length: 36" (91.5 cm)

#### DIMENSIONS & WEIGHT

- Unit dimension 13.8" x 8" x 5.5"  
(35.0cm x 20.5cm x 14.0cm)
- Weight 4.36 lbs (1.98 kg)

#### CLEANING SOLUTION

- Designed for use with MiST™ Cleaning Solution

#### OPTIONAL

- Battery Extension Cord #590155

For use when vehicle's DC outlet is inoperative. Connects directly to vehicle's battery.
